

Access to Growth Areas – Inglis Green

Pentlands Local Development Committee

26 January 2005

Purpose of report

- 1 To request the Pentlands Local Development Committee to approve a change to the advertised Traffic Regulation Order for the Inglis Green Road/Slateford Road junction bus priority works.

Main report

- 2 As part of an Access to Growth Areas Scheme bus priority scheme it is proposed to replace the roundabout at Inglis Green with traffic lights. The scheme was described in a report to the Council Executive on 2 November 2004.
- 3 Under delegated powers a Traffic Regulation Order was recently advertised and one objection was received from Robert Whyte of E H S Architectural of 49 Lanark Road. Mr Whyte's principal concern was about the loading bays provided.
- 4 In response to the objection and in order to meet Mr Whyte's concerns the design of the junction has been amended to provide an additional loading bay closer to 49 Lanark Road. The revised layout is shown on drawing No RTD/05/051/3/86.
- 5 On the basis of the revised layout Mr Whyte has now withdrawn his objection.
- 6 It is proposed that the Order be made in accordance with revised drawing and schedule.

Financial Implications

- 7 None.

Recommendations

- 8 To make the necessary Traffic Regulation Order with the amendments as outlined above and shown on the attached plan.

Andrew Holmes
Director of City Development
