

Listed Building Consent Application 04/04232/LBC
at
21 Torphichen Street
Edinburgh
EH3 8HX

**Development Quality Sub-Committee
of the Planning Committee**

1 Purpose of report

To consider application 04/04232/LBC, submitted by N H S Lothian. The application is for: **Install disabled access ramp at main entrance**

It is recommend that this application be **REFUSED** for the reasons in Appendix B.

2 The Site and the Proposal

Site description

The application property is an office occupying a three storey attic and basement classical style tenement within a palace fronted terrace by Thomas Bonnar, dating from 1824-31. The building, which is on the north side of the street, is category B listed (Dalry Ward) and situated within the West End Conservation Area and World Heritage Site.

Site history

There is no relevant planning history for this site.

Description of the Proposal

The application is for the installation of a 1:12 gradient metal access ramp with black metal handrails over the original stone entrance platt. There are no fixings into the stonework.

The associated internal alterations do not require listed building consent as these affect minor areas of the building.

3 Officer's Assessment and Recommendations

Determining Issues

The determining issues are:

- do the proposals preserve the buildings or their settings or any features of special architectural or historic interest which they possess? If they do not, there is a presumption against the granting of consent;
- do the proposals comply with the development plan?
- if the proposals do comply with the development plan, are there any compelling reasons for not approving them?
- if the proposals do not comply with the development plan, are there any compelling reasons for approving them?

Assessment

To address the determining issues, the Committee needs to consider whether the proposals have an adverse impact on the character of the listed building.

While the Council encourages improving access to services, this should not be to the detriment of the historic environment.

The character of the affected terrace is defined by its elegant late Georgian architecture within a palace façade. The proposed metal access ramp would seriously detract from the appearance of the listed building and terrace as a whole, as it would conceal a significant area of the original stone platt and set an undesirable precedent for similar ramps. The metal handrails would visually interfere with the decorative historic railings at either side of the platt and create a cluttered appearance at the main entrance. The unauthorised ramp at 25 Torphichen Street is identical to the proposed ramp and illustrates the detrimental impact which the proposed structure would have on the external appearance of the building.

While the proposed installation is fully reversible with no attachments into the stonework, the visual intrusion of the access ramp on the principal entrance to the listed building is unacceptable.

The proposals do not comply with the development plan and non-statutory policies and have an adverse effect on the character of the listed building.

There are no other material planning considerations which outweigh this conclusion.

It is recommended that the Committee refuses this application, for the reasons relating to the character of the listed building.

Consultations, Representations and Planning Policy

Consultations

No consultations undertaken.

Representations

No representations have been received.

Planning Policy

The site is located within the Central Edinburgh Local Plan, in the Mixed Activities Zone.

Relevant Policies:

Policy CD2 (LISTED BUILDINGS) sets out criteria for assessing proposals affecting listed buildings and seeks to safeguard their character and setting.

Non-statutory guidelines 'ACCESS TO THE BUILT ENVIRONMENT' seek to ensure that development proposals and streetscape works take account of the needs of disabled people.

Conditions/Reasons associated with the Recommendation

Recommendation

To recommend that this application be **Refused** for the following reasons

Reasons

1. The proposal is contrary to Central Edinburgh Local Plan Policy CD2, in respect of Listed Buildings, as the proposed ramp adversely affects the character of the listed building.
2. The proposal is contrary to the Non-Statutory Guidelines in respect of Access to the Built Environment, as the proposed ramp compromises the character and appearance of the listed building.
