**Development Quality Sub-Committee
of the Planning Committee**

1 Purpose of report

To consider application 06/03574/LBC, submitted by Mr Dunbar. The application is for: **illuminated neon sign saying 'Pyramid Imaging' to be displayed in top sections (x2) of front window signs to be illuminated 9am-6pm Mon-Fri only (retrospective)**

It is recommended that this application be **REFUSED AND ENFORCED** for the reasons below.

2 The Site and the Proposal

Site description

The application site comprises of the ground floor shop of a 4-storey 4-bay symmetrical tenement block with Scots Baronial details. The building is a category B listed building and was listed on 12.06.1996 (LB Ref: 47869).

This property is located within the Old Town Conservation Area.

Site History

- Application for change of use from retail unit to form licensed bookmakers and erect satellite dish on roof - granted on 06.08.1998.

- Enforcement Enquiry opened (06/00460/E01) on 03.07.2006 regarding neon signage and painting of shopfront.

Description of the Proposal

The retrospective application is for the erection of red illuminated neon signs to be displayed in the top sections of the front windows of the ground floor shop.

3 Officer's Assessment and Recommendations

Determining Issues

Do the proposals preserve the building or its setting or any features of special architectural or historic interest which it possesses? If not, there is a presumption against the granting of consent.

Do the proposals comply with the development plan?

If the proposals do comply with the development plan, are there any compelling reasons for not approving them?

If the proposals do not comply with the development, are there any compelling reasons for approving them?

ASSESSMENT

To address these determining issues, the Committee needs to consider whether the proposals have an adverse impact on the character of the listed building.

There is a presumption against the use of inappropriate illuminated signage on listed buildings. Illumination should be carefully controlled to minimise impact on the streetscene and historic character and should be subtle to protect the character of the building. In this case, the red neon illumination has seriously impacted upon the character of the listed building to its detriment.

Due to the lack of advertising space above the windows, the principle of signage in the window of this property is acceptable. However, despite being informed that white illumination would be more appropriate, the applicant has declined to amend the application accordingly. The signage is not discreet and is an inappropriate addition to the listed building

In conclusion, the proposals do not accord with the statutory development plan and non-statutory guidelines and have an adverse impact on the character of the listed building.

There are no material considerations which outweigh this conclusion.

It is recommended that the Committee refuses this application, for the reasons stated and agrees to initiate enforcement action to secure the removal of the signs.

Conditions/Reasons associated with the Recommendation

Recommendation

It is recommended that this application be **REFUSED AND ENFORCED**

Reasons

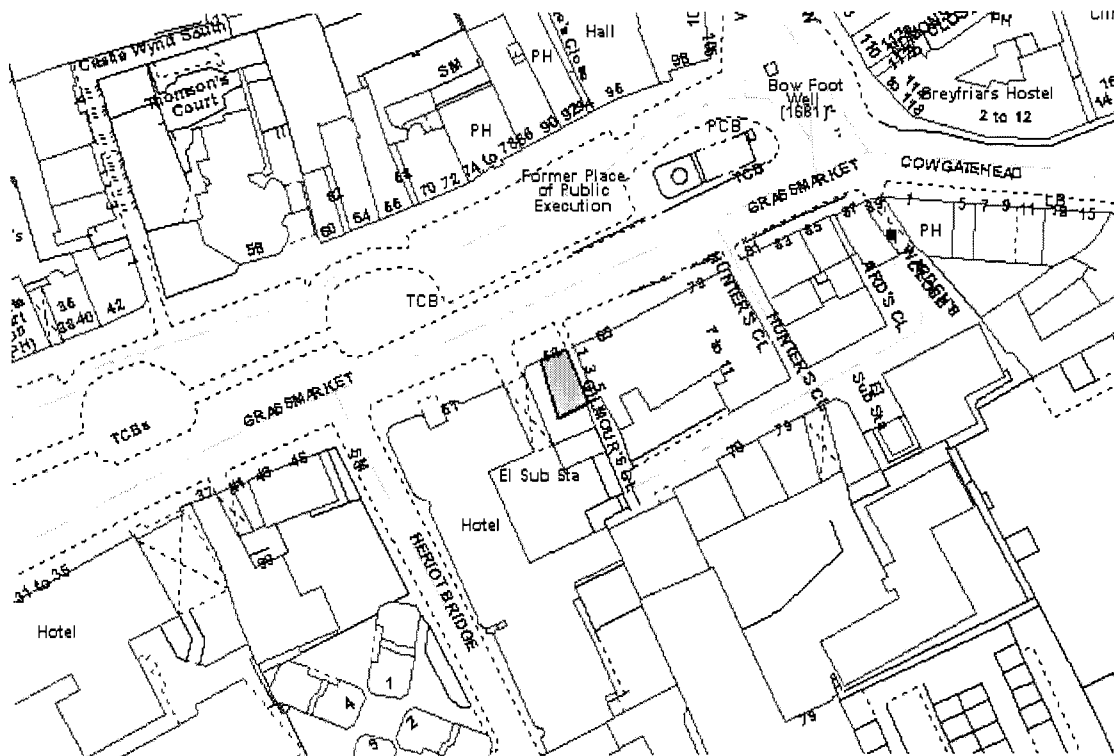

1. The proposal is contrary to Central Edinburgh Local Plan Policy CD2, in respect of Listed Buildings, as the red illumination is inappropriate and has an adverse impact on the character of the listed building.
2. The proposal is contrary to Central Edinburgh Local Plan Policy CD24, in respect of shop signs, as the red illumination is not discreet and has an adverse impact on the character of the listed building.
3. The proposal is contrary to Non Statutory Guidelines in respect of Alterations to Listed Buildings, as the red illumination has an adverse impact on the character of the listed building
