1 Purpose of report

To consider application 07/03346/LBC, submitted by CCK Bars Ltd.. The application is for: **Erection of retractable canopy, timber decking, hardwood counter + illuminated balustrade box between building + pavement (in retrospect)**

It is recommended that this application be **REFUSED AND ENFORCED**

2 The Site and the Proposal

Site description

The application relates to the basement of a 3-storey basement and attic classical tenement circa 1786-92. The application site is currently in use as a cafe with shops and offices on the upper floors.

This is a category 'B' listed building (listed on 24.03.1966, ref 28781) and is located within the World Heritage Site.

This property is located within the New Town Conservation Area.

07/00418/ELBB - Enforcement inquiry for 'Installation of Awning and Alterations to form Uplighters to Front of Premises including Removal of Railings'

Description of the Proposal

The retrospective proposals are for:

- A white plastic retractable canopy applied directly onto the stonework above the basement windows
- Timber decking which covers the original stone steps and solum floor
- A hardwood counter attached to a red plastic illuminated balustrade box which encloses the basement area

Although they do not form part of this application, the following unauthorised elements on the building are also being considered:

- Two uplighters located between the windows
- An ornate gilt message board applied to the wall adjacent to the windows

3 Officer's Assessment and Recommendations

Determining Issues

- Do the proposals harm the character or appearance of the conservation area? If they do, there is a strong presumption against granting of permission.
- Do the proposals preserve the building or its setting or any features of special architectural or historic interest which it possesses? If not, there is a presumption against the granting of permission. For the purposes of this issue, "preserve", in relation to the building, means preserve it either in its existing state or subject only to such alterations or extensions as can be carried out without serious detriment to its character.
- Do the proposals preserve the building or its setting or any features of special architectural or historic interest which it possesses? If not, there is a presumption against the granting of consent.
- Do the proposals comply with the development plan?
- If the proposals do comply with the development plan, are there any compelling reasons for not approving them?
- If the proposals do not comply with the development plan, are there any compelling reasons for approving them?

ASSESSMENT

To address these determining issues, the Committee needs to consider whether:

- a) the proposals have an adverse effect on the character of the listed building.

The raised decking is an inappropriate addition to the classical Georgian architecture of listed buildings, particularly within the New Town. The decking is not a traditional feature within basement areas of listed buildings and introduces an alien feature within the formal townscape. It is an incongruous addition to the basement area and has an adverse impact on both the character of the building and the setting of the listed building. The decking obscures the original stone steps and detracts from the architectural integrity of the listed building.

The retractable canopy housing is constructed of white plastic mounted on brackets applied directly onto the stone face of the building and is visually

obtrusive. The canopy is not a traditional feature and is not integrated into a traditional shopfront. It is an obtrusive element that has an adverse effect on the character of the listed building.

The red plastic lightbox is bulky, obtrusive and constructed of inappropriate shiny materials. The message board and uplighters do not form part of this application but they are also unauthorised and are not sympathetic to the building's character.

The proposed alterations are wholly inappropriate and have a detrimental effect on the character and architectural integrity of the listed building.

There are no other material planning considerations which outweigh this conclusion.

It is recommended that the Committee refuses this application and authorises enforcement action to remove the unauthorised canopy, lighting, message board, timber decking, hardwood counter and illuminated balustrade box for reasons relating to the adverse impact on the character of the listed building.

Conditions/Reasons associated with the Recommendation

Recommendation

It is recommended that this application be **REFUSED AND ENFORCED**

Reasons

1. The proposal is contrary to Central Edinburgh Local Plan Policy CD2, in respect of Listed Buildings, as the proposals have an adverse effect on the character of the listed building.
2. The proposal is contrary to Central Edinburgh Local Plan Policy CD19, in respect of Building Alterations, as the works are not compatible with the character of the original building in respect of design, form, choice of materials and positioning.
3. The proposal is contrary to Edinburgh City Local Plan Policy Env 3 in respect of Listed Buildings – Alterations and Extensions, as the proposals are not in-keeping with the character of the original building
4. The proposal is contrary to Non Statutory Guidelines in respect of Alterations to Listed Buildings, as the proposals have an adverse effect on the architectural integrity of the listed building
5. The proposal is contrary to the Non-Statutory Guidelines in respect of Commercial Frontages, as the property does not have a traditional shopfront and the proposals do not respect the buildings domestic character.
