

**Listed Building Consent Application 05/03349/LBC
at
29 - 29A Raeburn Place
Edinburgh
EH4 1HU**

**Development Quality Sub-Committee
of the Planning Committee**

1 Purpose of report

To consider application 05/03349/LBC, submitted by Stanley Racing Limited. The application is for: **Installation of 1 satellite dish to the rear wall of 29a Raeburn Place and installation of 2 air conditioning louvres to the rear of 29 Raeburn Place, in retrospect**

It is recommended that this application be **REFUSED AND ENFORCED** for the reasons in Appendix B.

2 The Site and the Proposal

Site description

The application site relates to a ground floor retail unit within a 2-storey and attic house, dating from 1814. The retail unit is single storey and has a modern shopfront. There is a substantial single storey extension to the rear of the property which occupies the whole of the garden area. The property is in betting office use.

The property is Category C(S) listed. It is located within the New Town Conservation Area.

Site history

97/00981/FUL - Change of use of premises from Class 1 retail to Class 11 office/services. Approved 11 June 1998.

04/01370/FUL/LBC - Consent refused to erect satellite dishes to the rear

05/00114/FUL/LBC - applications for satellite dish on rear elevation recommended for temporary approval. Approved 30 March 2005.

Enforcement history

Date of complaint: Neighbour's letters of 18 November and 1 December 2003, detailing unauthorised works - erection of large air conditioning unit on the front roof of the shop and the erection of large dish aerials on the rear roof.

Enforcement file 03/00862/E01 - opened 20 November 2003. Letter of 16 December 2003 requesting the removal of the air conditioning unit and satellite dishes by 31 January 2004.

Following discussions with enforcement and listed buildings sections, applications for planning and listed building consent for the repositioning of the air conditioning units and satellite dishes were submitted in May 2004 (04/01370/FUL/LBC). These applications were refused.

Enforcement action was authorised in September 2004, on the basis that four unauthorised dishes had been installed on the property. Enforcement Notices were drafted and about to be served in January 2005, when it was found that the number of unauthorised dishes had been reduced to two. On this basis, Legal Services advised that the Notice (as drafted) should not be served. Subsequent to this, temporary Planning permission for one dish was issued March 2005.

Description of the Proposal

This is a retrospective application to erect two air conditioning vents on the roof of the flat roof extension to the rear of the property and to erect a single satellite dish on the rear elevation at first floor level.

Supporting Information

The Agent has supplied a Supporting Statement. This is available in the Party Group Rooms.

3 Officer's Assessment and Recommendations

DETERMINING ISSUES

The determining issues are:

- Do the proposals preserve the building or its setting or any features of special architectural or historic interest which it possesses? If they do not, there is a presumption against the granting of consent;
- Do the proposals comply with the development plan?
- If the proposals do comply with the development plan, are there any compelling reasons for not approving them?
- If the proposals do not comply with the development plan, are there any compelling reasons for approving them?

ASSESSMENT

To address the determining issues, the Committee needs to consider whether the proposals have an adverse impact on the character of the listed building.

The owners of the ground floor property, Stanley Racing, require air conditioning into their ground floor premises. This retrospective application is for two air conditioning units on the flat roof extension to the rear. The vents are large and their visual impact within this rear area is not acceptable. The siting is contrary to non statutory guidelines on Services on Buildings. Stanley Racing also requires a satellite dish. The location of the satellite dish is contrary to non statutory guidelines on Satellite Dish Aerials. The dish is poorly sited and the visual effect of a satellite dish on the original fabric of the building will detract from its architectural composition. Furthermore, the proposals would not be in line with Government guidelines; The Memorandum of Guidance on listed buildings and conservation areas, states that 'these items can seriously disfigure a building and greatly diminish its architectural quality' (para 1.7.1)

The proposals fail to comply with the development plan and non-statutory policies and do have an adverse impact on the character of the listed building.

There are no other material planning considerations which outweigh this conclusion.

It is recommended that the Committee refuses this application for these reasons and initiates enforcement action to remove the unauthorised satellite dish and two air conditioning units.

Proposal: Installation of 1 satellite dish to the rear wall of 29a Raeburn Place and installation of 2 air conditioning louvres to the rear of 29 Raeburn Place, in retrospect

Reference No: 05/03349/LBC

Consultations, Representations and Planning Policy

Consultations

No consultations undertaken.

Representations

The application was advertised on the 4 November 2005.

One petition with five names was received. This refers to previous correspondence concerning the siting of satellite dishes and air conditioning equipment at the rear of the property.

Full copies of the representations made in respect of this application are available in Group Rooms or can be requested for viewing at the Main Reception, City Chambers, High Street.

Planning Policy

The application site is located within an area of Housing and Compatible Uses as identified in the Central Edinburgh Local Plan.

Relevant Policies:

Non-statutory guidelines on 'SERVICES ON BUILDINGS' supplement local plan conservation and design policies, providing additional guidance on the installation of services on the exterior of buildings.

Policy CD2 (LISTED BUILDINGS) sets out criteria for assessing proposals affecting listed buildings and seeks to safeguard their character and setting.

Non-statutory guidelines on 'SATELLITE DISH AERIALS' set criteria for assessing such proposals.

Application Type Listed Building Consent Application

Conditions/Reasons associated with the Recommendation

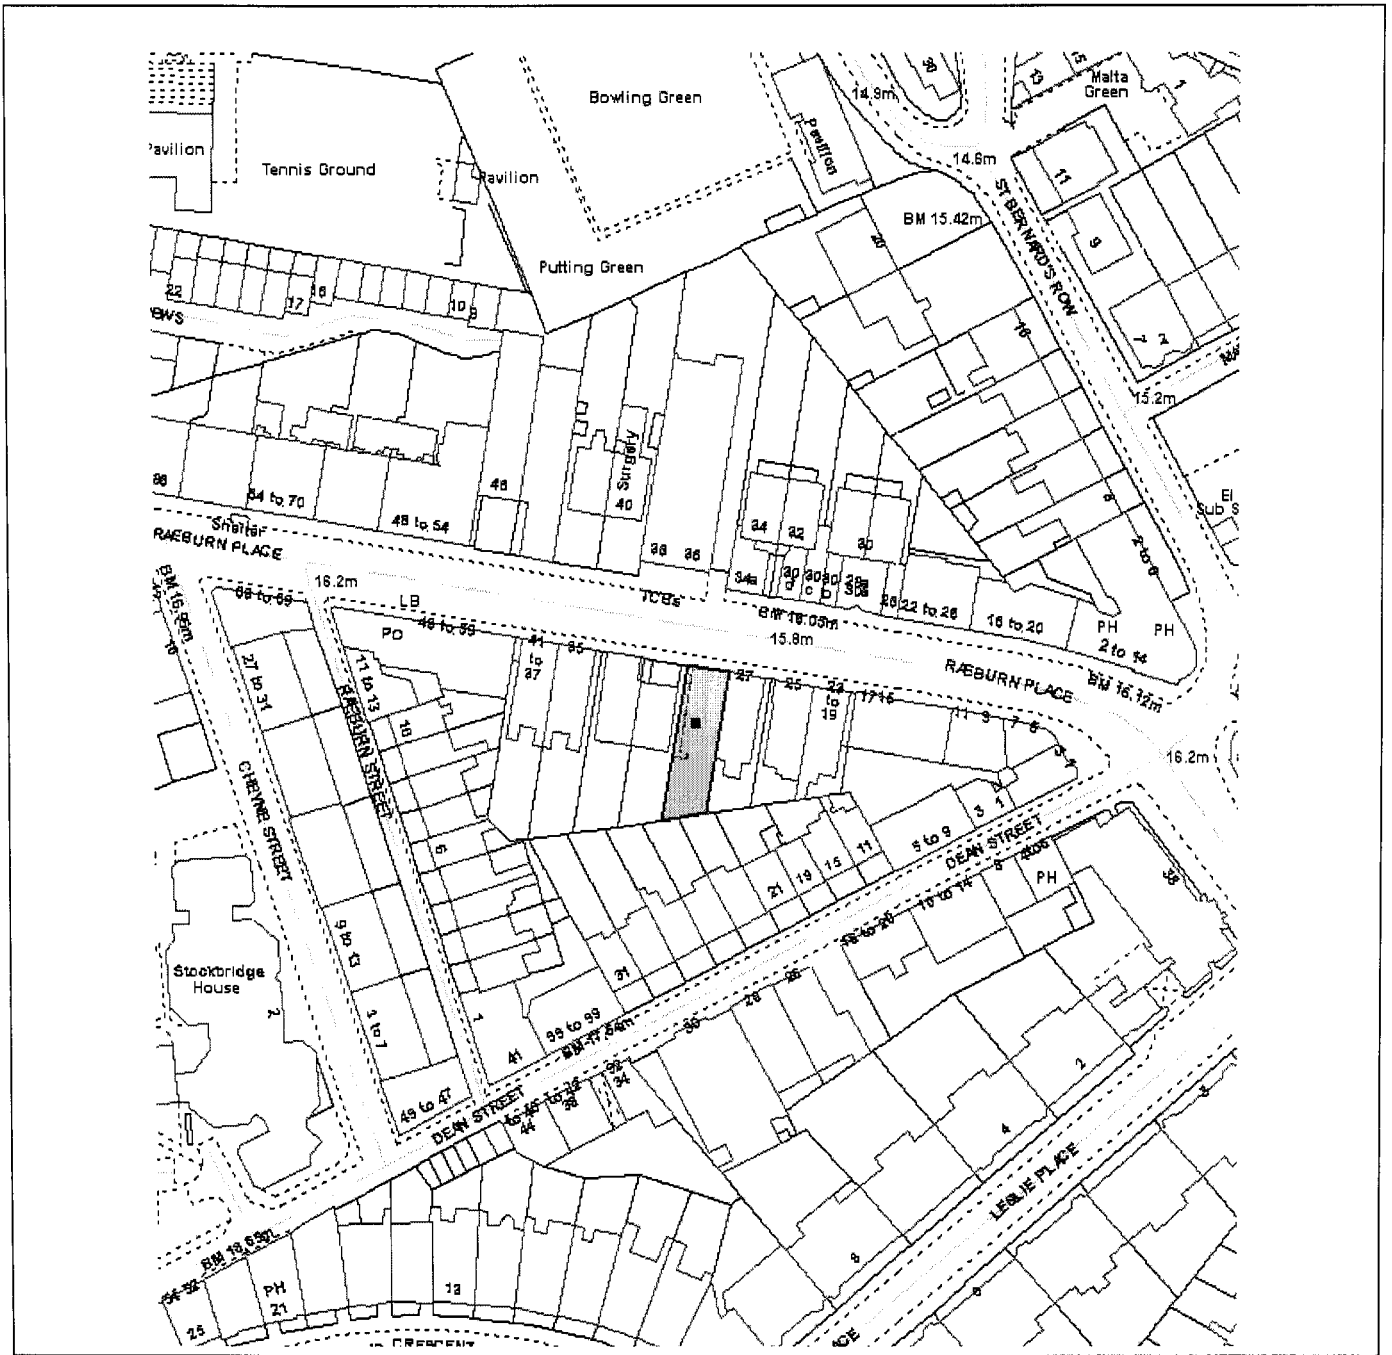

Recommendation

It is recommended that this application be **REFUSED AND ENFORCED**

Reasons

1. The proposal is contrary to Non Statutory Guidelines in respect of Satellite Dish Aerials, as the satellite dish adversely affects the listed building due to its conspicuous position.
2. The proposal is contrary to Non Statutory Guidelines in respect of Services on Buildings, as the air conditioning units, due to their size and positioning, would adversely affect the listed building and the character and appearance of the conservation area.
3. The proposal is contrary to Central Edinburgh Local Plan Policy CD2, in respect of Listed Buildings, as the satellite dish and two air-conditioning units would diminish the architectural integrity of the building.
