

Item no 5.3

QUESTION NO 3

By Councillor Mowat for answer by the Convener of the Transport and Environment Committee at a meeting of the Council on 26 June 2014

Question

Can the Leader tell Council when the decision to reduce the residual waste capacity from a 240l bin to a 140l bin went through a Committee for a decision on the principle of reducing residual waste capacity by 40%; given that a 50% reduction in capacity was introduced in 2013; is the Leader aware that approving the tender for an additional 240l bin would have met the budgeted cost as agreed by the Transport and Environment Committee in the Outline Business case for Kerbside Recycling Review agreed on 27th August 2013?
