## 6. Capital Coalition Pledges Performance Monitoring November 2013 – April 2014

---

The Council had agreed the Capital Coalition pledges, noting arrangements for delivery and reporting on performance of these pledges every six months.

An update was provided on the current performance towards meeting those pledges.

### Motion

To agree the performance against the Capital Coalition's Pledges for November 2013 to April 2014.

- moved by Councillor Burns, seconded by Councillor Cardownie

### Amendment 1

Council notes with concern that many of the Capital Coalition Pledges remain ill-defined and unspecific in their expected outcomes. Considers that many of the proxy measures used to suggest progress are often out of date, contain limited outcome

measures or are entirely subjective and that some that have been completed are simply limited technical actions entirely within the gift of a majority Administration such as appointing a “Care Champion”. Council further notes that no additional pledges have been completed since reporting data for November 2013 to April 2014.

Council therefore instructs the Chief Executive to carry out a review of the pledges and performance information to provide outcome based measures of Council with SMART measurements and concentrating on the core work of the Council’s services

- moved by Councillor Whyte, seconded by Councillor Mowat

## **Amendment 2**

- 1) To agree the performance against the Capital Coalition’s Pledges for November 2013 to April 2014.

  - Against pledge 8, the need to ensure that the emerging Local Development Plan focuses house-building on brownfield sites.
  - Against pledge 10, the importance of showing a track record of empty homes being brought back into use, at a time when there is new pressure on green sites.
  - Against pledge 12, the value of consistency in policy as regards the issuing of licences for the sale of alcohol at the same time as funding treatment programmes.
  - Against pledge 16, the interest shown by the ethical finance sector in developing an ethical finance hub in the Capital and the importance of continued support for that.
  - Against pledge 17, the importance of strategic sites diversifying the economic base, with support for SMEs and Edinburgh-based firms and enhancing Edinburgh as a lived-in city centre.
  - Against pledge 21, the continuing case for a transient visitor levy at a time of increased strain on core council budgets.

- Against pledge 28, the growing importance of the social enterprise sector to the city and its integration with core economic plans.
- Against pledge 32, the concerns of the community about new arrangements for policing and the need for community groups to have clear links with police contacts.

---

The Council was requested to delegate authority to the Chief Executive, in consultation with the Council Leader and Depute Leader, to make a Compulsory Purchase Order in respect of property interests required for the redevelopment of the St James Quarter and to finalise the terms of a Minute of Agreement with St James Edinburgh Limited to reimburse the council for all costs and compensation payments incurred with the making and implementation of the Compulsory Purchase Order and subsequent transfer to St James Edinburgh Limited of the interests acquired.

## **Motion**

- 1) To delegate authority to the Chief Executive, in consultation with the Council Leader and Depute Leader, to make and implement a Compulsory Purchase Order for the St James Quarter redevelopment area pursuant to section 189 of the Town and Country Planning (Scotland) Act 1997 (“the 1997 Act”) for the purpose of acquiring the land and property interests shown in the CPO Plans and Schedule of Interests detailed in Appendices A and B to the report by the Acting Director of Services for Communities respectively, with the Chief Executive also having the authority to remove any of those land and property interests from the scope of the Compulsory Purchase Order if she considered it necessary or desirable to do so, and delegate authority to the Chief Executive to take all actions necessary to effect the foregoing.

- 3) To note that prior to the signing of the Minute of Agreement, the Chief Executive would consult with political group leaders on the final terms of the Minute of Agreement and outline how risks were to be mitigated.
- 4) To delegate authority to the Chief Executive, or such other officer as the Chief Executive authorised, to take such action deemed necessary or desirable to implement and enforce the terms of the Minute of Agreement.
- 5) To note that St James Edinburgh Limited would continue to seek negotiated acquisitions of the affected properties and interests, in parallel with the Council pursuing the Compulsory Purchase Order.
- 6) To note that the Council owned areas of land as shown in pink on Plan 1 annexed to the report by the Acting Director of Services for Communities which were required for the St James Quarter redevelopment and these areas would be subject to a separate sale agreement by the Council to St James Edinburgh Limited and that the terms and conditions of the same would be referred to the Economy Committee for approval in due course, with subsequent ratification by the Finance and Resources Committee, if so approved by the Economy Committee.
- 7) To note that some of the areas of Council owned land shown pink and hatched grey on Plan 1 of the report by the Acting Director of Services for Communities were considered likely to form part of the inalienable common good of the City, and as such any proposed sale of the same would be subject to the prior approval of the Court of Session, in the usual way; in connection with this the land in question would be the subject of an application to the Court of Session to seek the Court's consent to sell this land to St James Edinburgh Limited, the cost of which application would be met by St James Edinburgh Limited.

Executive also having the authority to remove any of those land and property interests from the scope of the Compulsory Purchase Order if she considered it necessary or desirable to do so, and delegate authority to the Chief Executive to take all actions necessary to effect the foregoing.

- 2) To delegate authority to the Chief Executive, in consultation with the Council Leader and Depute Leader, to finalise the terms of the Minute of Agreement to be entered into by the Council with St James Edinburgh Limited pursuant to Section 191 of the 1997 Act as detailed within paragraphs 3.54 to 3.58 of the report by the Acting Director of Services for Communities, said Minute of Agreement to secure reimbursement to the Council of all costs, fees, expenses and compensation claims incurred by the Council arising from the Compulsory Purchase Order and the subsequent transfer of the acquired property interests to St James Edinburgh Limited, and with such additional terms as the Chief Executive considered necessary or desirable and have the said Minute of Agreement entered into on behalf of the Council prior to making the Compulsory Purchase Order.
- 3) To note that prior to the signing of the Minute of Agreement, the Chief Executive would consult with political group leaders on the final terms of the Minute of Agreement and outline how risks were to be mitigated.
- 4) To delegate authority to the Chief Executive, or such other officer as the Chief Executive authorised, to take such action deemed necessary or desirable to implement and enforce the terms of the Minute of Agreement.
- 5) To note that St James Edinburgh Limited would continue to seek negotiated acquisitions of the affected properties and interests, in parallel with the Council pursuing the Compulsory Purchase Order.
- 6) To note that the Council owned areas of land as shown in pink on Plan 1 annexed to the report which were required for the St James Quarter redevelopment and these areas would be subject to a separate sale agreement by the Council to St James Edinburgh Limited and that the terms and conditions of the same would be referred to the Economy Committee for approval in due course, with subsequent ratification by the Finance and Resources Committee, if so approved by the Economy Committee.
- 7) To note that some of the areas of Council owned land shown pink and hatched grey on Plan 1 of the report by the Acting Director of Services for Communities were considered likely to form part of the inalienable common good of the City, and as such any proposed sale of the same would be subject to the prior approval of the Court of Session, in the usual way; in connection with this the land in question would be the subject of an application to the Court of Session to seek the Court's consent to sell this land to St James

Edinburgh Limited, the cost of which application would be met by St James Edinburgh Limited.

- 8) To note that, following the making of the Compulsory Purchase Order and the entering into of the Minute of Agreement, the final confirmation of those land and property interests included within the Compulsory Purchase Order would be reported to the Planning Committee.
- 9) To note the potential for businesses displaced during the purchase and redevelopment period deciding not to offer employment elsewhere to staff currently employed and that the highest priority should be given to identifying those staff and supporting them into alternative employment.
- 10) To note the confusing way common good assets and Council-owned land were described in the report by the Acting Director of Services for Communities and seek a further report to Economy Committee, prior to any court consent for disposal, to ensure that maximum benefit was secured for the common good account from any disposal or alternative use of common good assets

- moved by Councillor Corbett, seconded by Councillor Booth

## **10. Workfare – Motion by Councillor Burns**

---

The following motion by Councillor Burns was submitted in terms of Standing Order 16:

“This Council believes that work should pay and therefore opposes the introduction of schemes which force job seekers into unpaid work or face losing their benefits – schemes known popularly as *workfare*.

This Council is concerned that there is no evidence workfare assists job seekers in finding work and in fact working a 30-hour week makes that more difficult; that workfare is replacing paid work; and that workfare stigmatises benefits claimants and locks them further into poverty.

This Council pledges not to use any workfare placements and will also encourage contractors not to use the schemes.”

### **Motion**

To approve the motion by Councillor Burns.

- moved by Councillor Burns, seconded by Councillor Cardownie

### **Amendment**

That no action be taken on the motion by Councillor Burns.

- moved by Councillor Rust, seconded by Councillor Nick Cook

**QUESTION NO 2**

**By Councillor Mowat for answer by  
the Convener of the Transport and  
Environment Committee at a meeting  
of the Council on 29 May 2014**

**Question**

1. To ask the Convener of Transport and the Environment whether she has details of streets, including rural areas, in the City which have experienced missed domestic waste collections from April 2013 to present, broken down by general waste, food waste and recycling waste.
2. To detail which streets have experienced missed collections of large on-street bins for the collection of domestic waste for the same time period.
3. How many collections including assisted uplifts have been missed during this period?

**Answer**

The total number of complaints received by Waste Services between April 2013 and April 2014 regarding missed collections was 24,563. This number equates to 0.1% of all bin uplifts which total nearly 25 million per year.

1. There were 3,253 streets which recorded Missed Domestic Collections during the period April 2013 to Mid May 2014. Of these 1,537 streets recorded Missed Food Waste Collections; 2,005 streets recorded missed Garden Waste; 1,056 recorded missed Blue and Red Box Collections; 1,913 streets recorded missed Individual Wheeled Bins and 192 streets recorded Missed Black Sacks. The full breakdown of streets affected is available in attached spreadsheet.

**Answer**

- 2 There were 991 streets which recorded missed On Street bins during the period April 2013 to mid May 2014. Of these 69 streets recorded missed Food Waste Communal bins; 374 streets recorded missed Packaging Communal bins and 808 streets recorded missed Residual Communal Bins. The full breakdown of streets is available in the attached spreadsheet
- 3 While Waste Services can record the number of complaints of Missed bins over the period April 2013 to mid May 2014, it does not have an accurate record of how many bins were actually missed. Waste Services received 24,563 Missed Bin complaints over the above period, but this figure could over report the number of missed bins, as callers may call in several times about the same missed bin, or several callers make contact about the same missed On Street bin. 21,172 complaints were made about Missed Domestic Bins (see Q1) (which includes 2,952 Missed Assisted Collections over the reporting period. 3,391 complaints were made about On Street bins (see Q2). Combining Domestic and On Street bins 3,615 streets were affected by / reported Missed Bins during the reporting period.

In addition to the above, it should be noted that Waste Services is in the final stages of rolling out an in-cab asset and works management system called Confirm. Crews will now be able to feedback real time to Supervisors on the causes for any missed collection of a bin - be it blocked access or road works, thus simplifying the identification of missed collections and the process of rescheduling to other teams for collection.

**Supplementary Question**

I'm extremely pleased that we've managed to find this information. Given the quantity of the information, I haven't been able to do a detailed analysis of this, but what I would ask is that, and I don't expect this to be done obviously today on the hoof, whether the Convener would be able to give a commitment that where we've got streets which have experienced 25 incidences or more of missed collections we could look and examine to see if this is the same property and report back to the Transport and Environment Committee and have action plans in place to agree how we

tackle this going forward to keep this as an annual monitoring because it's not the total incidences of missed collections for the total incidences of a low figure for those where there are repeat incidences those are the ones that we need to tackle and I'm soliciting the Convener's support in tackling this across the City where there are high incidences in particular streets.

**Supplementary  
Answer**

Just to say, and I'm sorry if it sounds a bit smug but, I was concerned, from some Councillors in particular Councillor Keil and also Councillor Rust and other people, regarding some streets where it appears we were just not getting to the bottom of the issues of why they're not getting collected and you can see that with the list that's here that there are some of them. So probably about 2 months ago, 3 months ago, myself and Dougie Dolan, as the Business Manager, put together all of the ones we felt there had been complaints about on a regular basis and took it up with the Director. The Department has now looked at all of those regular occurrences in those streets and are addressing at a local level and monitoring it and seeing whether there is a particular problem. So we have done that already but I'm happy to say that when we come back to report on complaints as we do, that we can try to identify ones that still have a regular problem and how we are trying to deal with it. Just to give an assurance we are monitoring that because while we can have one-off incidences, it will always happen in life, I think it is just unacceptable though that we have some of these recurring incidences in streets. Just to give an assurance that that's being done in the last 203 months and certainly – I shouldn't say this, touch wood – I haven't had as many complaints over the last couple of months in terms of regular occurrences so I'm quite confident that the Department are dealing with those regular occurrences in those streets.

## QUESTION NO 3

**By Councillor Whyte for answer by  
the Convener of the Finance and  
Resources Committee at a meeting  
of the Council on 29 May 2014**

### Question

It has come to my attention that, following a software change to the Council Tax system in 2003, a software error prevented outstanding amounts on customer accounts from automatically going to the next stage of recovery. The result is that there are still accounts with amounts outstanding and that recovery action can suddenly restart should a member of staff notice this.

In light of this Could the Convener of Finances & Resources Committee provide the following information:

1. The number of council tax accounts that have outstanding debts of this type.
2. The value of these debts.
3. An explanation of the process in place to monitor these debts and seek payment.
4. Why has it taken in some instances in excess of 11 years to bill those affected?

### Answer

1. The number of Council Tax accounts that have outstanding debts of this type is 850.
2. The value of this debt outstanding is £820,000.
3. To address this issue the Debt Recovery team is regularly reviewing these accounts in detail. All post 2005 Council Tax accounts are dealt with under the agreed process which means that those in arrears are sent reminders and Sheriff Officer action taken as appropriate.
4. Bills were issued for all of these accounts but the payment delay has come about both through people not paying and the agreed process not being implemented. Since 2013 each case is being investigated in detail and pursued sensitively by the recovery team

**Supplementary  
Question**

I'm grateful to the Convener for the answer he has provided. The difficulty I have with it is, it doesn't address the fundamental point and that point is that there are Council Tax accounts out there with debts on them amounting to £820,000 where some of those people may have had a bill back in 2003 but haven't heard anything further from the Council since. The Convener talks about the process being in place and that since then accounts are being assessed and pursued sensitively. The evidence I have is of a constituent only being told because he happened to come in and discuss a matter with a current Council Tax issue and then pursued for a bill from 2003.

If there is a process Lord Provost, can the Convener assure me that that process will be in place. Can he also look at any other financial processes we have and ensure that they are being followed and does he consider that we need to raise this matter with the Internal Auditors to check whether there are any other parts of the Council where matters that should be pursued are not being pursued.

**Supplementary  
Answer**

You'll realise of course that these problems go back to 2003 and we have put in place a process which aims to deal with all of these difficulties as expeditiously as possible. The Vice-Convener and I have been looking at the process and will shortly satisfy ourselves that it meets all the points you make.

I think it is very unfortunate that people do turn up at an office to pay a bill and only discover then that they are due arrears and it's not the way the system should be operating.

I have mentioned before at previous Council meetings in response to other Council questions that there are in some parts of the Council difficulties with getting the right quality of management information and I think this is an area which comes under that heading

As far as internal auditors are concerned, I think there is a very good argument for looking at all these questions in detail and whether or not all the Council's processes are delivering what they should and are looking after the interests of tax payers as best as the Council can. So I do accept the point you make but we are in the process of trying to sort these difficulties out. If you wish any further information then I'd be happy to provide it outside this forum.
