Report

Application for Advert Consent 17/05095/ADV At Advertising Hoarding, Dalry Road, Edinburgh A non-illuminated, self-standing poster advertising structure at the juncture of Dalry Road and Haymarket.

Recommendations

1.1 It is recommended that this application be Granted subject to the details below.

Background

2.1 Site description

The site is located at the junction of Dalry Road and Haymarket on the southern side of the junction. There is a large pavement build out which is at the cross section of 2 sets of signalised crossings.

To the south west of the application site is the category B listed Ryries Bar (listed 9 February, 1993 number 26926).

The site is not located within a conservation area or the World Heritage Site.

2.2 Site History

There is no relevant planning history for this site.

Main report

3.1 Description Of The Proposal

Advertisement consent is sought for the erection of an advertising drum for a period of 5 years.

The advert drum is of a circular form and is on a 200mm base with the zone for the advert 2.4 metres high. The overall advert area is 1.37 square metres. The structure has been installed on the site.

The advert drum is part of a programme of advert drums proposed across the city and there is currently a consultation event being run by the applicants on the design of the top of the drum. The finished top to the drums are designed to replicate some structure within the City.

The applicant, City Centre Posters is the successful bidder for the tendering process carried out by the Council to select a Company to install Arts and Culture Advertising Structures throughout the City.

Each application is considered on its own merits.

3.2 Determining Issues

Do the proposals affect the amenity of the locality? In the determination of the suitability of the site for the display of advertisements, the Planning Authority shall have regard to the general characteristics of the locality including the presence of any feature of historical, architectural, cultural or similar interest. The authority may disregard any advertisements displayed in the locality.

Do the proposals affect public safety? The Planning Authority shall in particular consider whether any such display is likely to obscure, or hinder the ready interpretation of, any road traffic sign, railway signal, or aid to navigation by water or air.

3.3 Assessment

To address these determining issues, the Committee needs to consider whether:

- a) the proposal has an acceptable impact on amenity;
- b) the proposal would compromise public safety;
- c) the proposal would have any equalities or human rights impacts; and
- d) public comments have been addressed.

Regulation 4 (1) of the Town & Country Planning (Control of Advertisements) (Scotland) Regulations 1984 (as amended) states that advertisement control shall be exercisable only in the interests of amenity and public safety.

a) Amenity

The site is not located within a conservation area or the world heritage site. This area is very much characterised by the transport interchange at Haymarket and the adjacent roads. Ryries Bar at the Haymarket junction provides a backdrop to the advertising drum. Whilst Ryrie's Bar is a category B listed building the proposed advertising drum is not considered to have an adverse impact on the setting of the building. The drum is located within the wider public realm/ footpath area and is positioned away from the main elevation of the listed property.

It is considered that the proposed advertising drum will not have any adverse impact on amenity.

b) Public Safety

The proposal raises no concerns regarding public safety.

c) Equalities and Human Rights

This application has no impacts on equalities and human rights.

d) Public Comments

No letters of representation have been received.

Conclusion

Regulation 4 (1) of the Town & Country Planning (Control of Advertisements) (Scotland) Regulations 1984 (as amended) states that advertisement control shall be exercisable only in the interests of amenity and public safety. There are no issues in relation to amenity or public safety as a result of this proposal.

It is recommended that this application be Granted subject to the details below.

3.4 Conditions/reasons/informatives

Conditions:-

1. Consent is granted for a period of five years from the date of consent.

Reasons:-

1. In order to accord with the statutory requirements of the Town and Country Planning (Scotland) Acts.

Financial impact

4.1 The financial impact has been assessed as follows:

The issues surrounding the advertising drums were reported to full committee on 29 June 2017 as part of the Monitoring Officer's Report (Item 8.6) following the report by the SPSO. Procurement and Legal are currently working to finalise the procurement process for the new project to put in place appropriate contractual arrangements.

Risk, Policy, compliance and governance impact

5.1 Provided planning applications are determined in accordance with statutory legislation, the level of risk is low.

Equalities impact

6.1 The equalities impact has been assessed as follows:

The application has been assessed and has no impact in terms of equalities or human rights.

Sustainability impact

7.1 The sustainability impact has been assessed as follows:

This application is not subject to the sustainability requirements of the Edinburgh Design Guidance.

Consultation and engagement

8.1 Pre-Application Process

Pre-application discussions took place on this application.

8.2 Publicity summary of representations and Community Council comments

No representations have been received.
