We are very concerned at the recent reports of the proposals to close the Blindcraft Factory at Craigmillar and the rejection of any of the plans put forward to save the Factory. As the Chairperson of Edinburgh's Social Work Committee and of Lothian Region's Social Work Committee from 1968 to 1982 who proposed and supported the Blindcraft Factory I would appreciate the opportunity to present the case to keep this important facility open. Please advise me if this will be agreed to and that I can attend the Council meeting this week. I look forward to hearing from you.

Yours sincerely,
