Roads (Scotland) Act 1984
APPLICATION FOR CONSENT

Please tick the applicable box:

A	☐	**EXCAVATION** (Section 56, 59, 60 & 61)	**Carry out general excavations in the road or footway. (excludes excavations to place and retain apparatus in road - this requires a Section 109 application form to be submitted)**
B	☐	**FOOTWAY DROPPED CROSSINGS** (Section 56, 59, 60 & 61)	**Excavate the footway to accommodate a proposed driveway or other access requirements.**
C	☐	**ROAD OCCUPATION** (Section 58)	**Occupy a portion of road to place materials, site huts, storage containers, contractors' plant etc.**
D	☐	**SCAFFOLDING** (Section 58)	**Scaffolding/hoarding/fencing, staging and access towers.**
E	☐	**TOWER CRANE** (Section 58)	**Erection of tower crane from adjacent public road (e.g. associated mobile cranes, lorries etc.).**
F	☐	**HOISTS, MOBILE CRANES & CHERRY PICKERS & HIAB** (Section 58)	**Operation of mobile cranes and hoists from adjacent public road.**

TOTAL COST of Permit (for office use only)	£	***Road Permits to check total cost of permit and advise permit desk of any errors***

1. Location of proposed works	
2. Description of work	

3. Date Works Planned					
Start Date		Completed Date		Duration	

4. Name and address of client/property to whom this consent may be issued.		5. Name and address of Agent acting for the owner. (if applicable)		6. Name and address of contractor.	
Phone		Phone		Phone	
Mobile		Mobile		Mobile	
Email		Email		Email	

I/We agree to comply with the conditions set out in the attached notes pertaining to a permission granted as a result of this application.

Name of owner/agent or contractor…….

Signature of owner/agent or contractor……Date…….

IMPORTANT NOTICE

Following approval of the Council as Roads Authority, and pursuant to Section 140 of the Roads (Scotland) Act 1984 all expenses reasonably incurred for site inspection associated with the issue of permits under Section 58 Roads (Scotland) Act 1984 will be recovered by means of a charge payable by the applicant at the time of permit issue. A scale of charges applicable for the issue of Section 58 permits is detailed on the enclosed sheet of Notes and Guidelines.

This form version –April 2026

ROAD OCCUPATION PERMIT
MOBILE CRANES, HOISTS AND CHERRY PICKERS

PERMIT APPLICATION REQUIREMENTS

You must provide:

1. Completed Roads (Scotland) Act 1984 – Section 58 application form

2. One copy of a plan (dimensioned and to an appropriate scale) showing the position of the hoist and the part of the road to be occupied. All dimensions including footway and carriageway widths must be included along with details of any street furniture, street lighting, bollards etc.

3. If a road closure or parking suspension is required, full details with regard to extents and duration should be submitted with this application. Please note that suspensions will be required for the occupation of parking bays and will incur a charge. Further information, including details on how to apply for a parking suspension, is available on the Council website:
   https://www.edinburgh.gov.uk/parking-spaces/dispensations-suspensions/1

4. If the jib swings over adjacent properties, then you must obtain and provide proof of receipt of an oversailing agreement with all the affected property owners.

5. Provide details of the manufacturers specification for the plant/machinery you will be using.

6. A traffic management drawing to demonstrate that the proposal will not be detrimental to the safe and convenient passage of pedestrians, vehicles or other road users. Please refer to the publication “Safety at Street Works and Road Works – A Code of Practice” for guidance (ISBN No. 9780115531453).

7. Service copies of the application form together with site plans must be sent by Recorded Delivery to the Public Utility Services and the relevant Recorded Delivery slips must be attached to your application. Please note that Scottish Water no longer stipulate this as a requirement.

8. A method statement covering the nature and extent of the works together with proposals to safeguard and protect Council property e.g. Street Lighting units, cabling etc.

9. A risk assessment.

10. A copy of current Public Liability Insurance.

11. Fees as detailed (fees to be submitted with the application).

Important Notes (*Please note that incomplete forms will not be accepted and in such instance, consent will not be granted*)

a) The introduction of the Tram system in Edinburgh has highlighted the need to make all developers and contractors aware of the restrictions which will be introduced, to safeguard the route and protect the overhead line equipment and underground services.

   As well as the existing functioning route, the route extending to Newhaven is being protected for future works.

   If you intend carrying out work on or near one of the streets listed in Appendix A, please contact the local roads engineer for the area who will be able to advise you further.

b) Please note that a minimum period of notice is required for permit processing and that this timescale may increase if a site meeting is required. Notice periods for different types of permit are shown below. It is in the public interest that the authority must process your application before it can be granted. The time to process your application will vary depending on the complexity of the proposal and so the Council cannot give a general timescale for approvals. You must wait until the Council has formally approved your application before proceeding.

c) You must keep the Council informed of the actual start and completion dates and any changes to your proposed dates. Failure to do so may lead to a fine. Please see below for details of your responsibilities to update the Council.

d) As each site is unique you may wish to consult us regarding feasibility and any relevant conditions that may apply. Any special conditions applied to this consent must be observed.

e) No loads are permitted to be carried over streets or adjoining properties.

f) Applications to place mobile cranes, hoists or cherry-pickers on the footway will not normally be given consideration as most footways are not constructed to accommodate such loadings. Only in exceptional circumstances will this be considered, and permissions will only be given after a condition survey is carried out on the footway. In such cases, the applicant will then be liable for any damage or resulting public liability claims arising from their operations.

g) All loading / unloading of materials will be restricted to the limits of the site.

h) Applicants will be required to check for any underground structures (such as cellars) to ensure that these are not adversely affected by the proposal.

i) If you propose to work out with 0700hrs to 1900hrs Monday to Saturday and your works are likely to generate noise, you must contact The City of Edinburgh Council's Noise Abatement Team on 0131 529 3030. (email: asknoise@edinburgh.gov.uk).

j) If the works affect the operation of an existing bus stop, a temporary bus stop can be obtained by contacting: BSI Department, Lothian Buses, Annandale St, Edinburgh, EH7 4AZ. Phone 0131 475 0254 (Ansaphone)

Please note that Lothian Buses will initially require 7 days' notice for providing this facility, followed by 24 hrs notice to confirm the specific time required.

How Much Advance Notice Is Required

There are 3 main factors to take into account when considering how much advance notice you must give of your intended start date.

- The Permit Type
- Whether or not the Street in which you are working is Traffic-Sensitive
- Whether or not the works or road occupation will require a road closure, lane occupation or other Temporary Traffic Regulation Order.

In order to allow the necessary time for advance registration and general application processing, your application should be submitted so that it gives at least the notice periods indicated on the charges page. Please note that these periods are calculated from the time a complete application is received.

Please note that if there is a need for a site meeting to discuss the application, additional consultation, or additional information then the application process may take longer.

Traffic Sensitive Streets

Some Roads in Edinburgh are designated as “Traffic-Sensitive” because of their importance to traffic flow within the City. Roads may be traffic-sensitive all of the time, or only for part of the time on certain days, e.g. at Peak Periods.

To find out if the Street in which you intend to work is traffic-sensitive check the Council website at www.edinburgh.gov.uk or by contacting us. The site has a download which shows whether or not the whole Street is traffic-sensitive, or only a part of it, and the times at which it is designated as traffic-sensitive. If the Street is not on this list, then it is not designated traffic-sensitive.

You should contact us for more information if:

- The whole road is not traffic-sensitive and you want to find out which sections are not;
- You think the works you are planning will be carried out wholly out with the traffic-sensitive period for the Street.

Applicant's Responsibilities for Progress Updates

Once a Permit is approved the Transport (Scotland) Act requires that the works are registered on the Scottish Road Works Register **and updated** to reflect any changes in proposed start or end dates as well as the date work *actually* starts and is completed.

The following table details when you must inform the Council of changes to intended dates and progress once work has begun. Fines may be applied if you do not do so.

Permit Type	**Change to Intended Start or End Date ***	**Work / Occupation Begun**	**Work / Occupation / Completed**
Excavate the road or pavement	Yes. ASAP	Yes. By 17:00 the day work begins.	Yes. By 17:00 the day work is completed.
Occupy a portion of road to place materials, site huts, storage containers, contractors plant etc	Yes. ASAP	Yes. By 17:00 on the day occupation begins.	Yes. By 17:00 the day occupation is completed.
Occupy a portion of road to erect scaffolding, hoarding, staging, fencing and access towers	Yes. ASAP	Yes. By 17:00 the day occupation begins.	Yes. By 17:00 the day occupation is completed.
Occupy a portion of road to erect or operate a tower crane, mobile crane, hoist, or cherry picker	Yes. ASAP	Yes. By 17:00 the day occupation begins	Yes. By 17:00 the day occupation is completed.
Deposit a skip on the public road	Yes. ASAP	Not Required	Yes. By 17:00 the day skip is removed.

* If you have started work or an occupation and wish to extend the Permit then you must contact us at the earliest opportunity**. A works extension request for works or occupation on a traffic-sensitive road must be submitted at least 3 days before the date on which you originally planned to finish.** An extension to the Permit may require that an additional fee be paid.

If you want to bring the start date forward, you may find that there are legal restrictions on how soon you can start, so you must consult us as soon as possible.

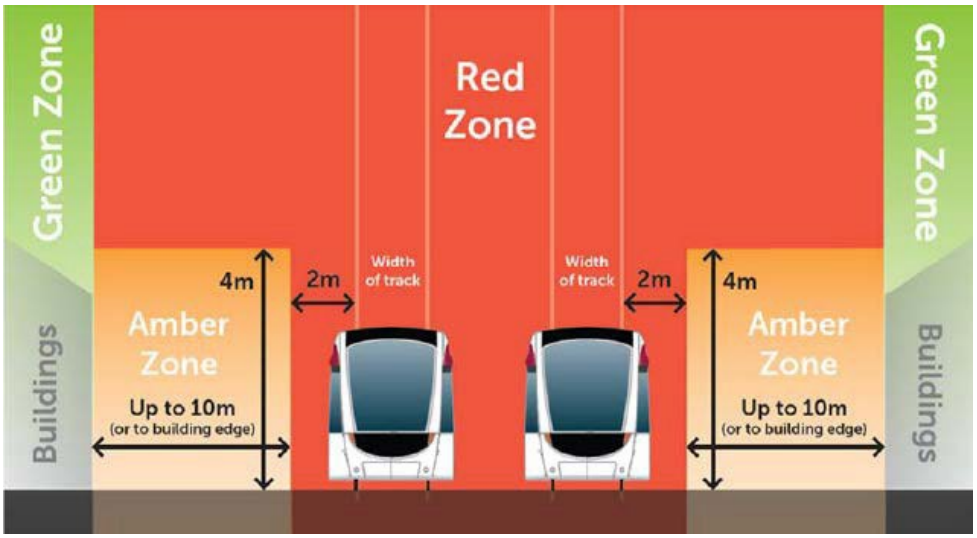
Authorisation is required to work on or near Edinburgh Trams

The Hazard Zone defines the area within which there is the potential for encountering live voltage cables and tramway infrastructure and is defined in the drawing below.

Authorisation is required for **all** work carried out within the Red Hazard Zone and other situations. Authorisation may be required for work carried out in the Amber Hazard Zone.

Unauthorised work can be dangerous and is contrary to the Edinburgh Tram Byelaws and New Roads and Street Works Act (Scotland) 1991 Section 152.

It is **your** responsibility to obtain an Authorisation to Work from Edinburgh Trams in addition to any permit applied for from The City of Edinburgh Council.



To apply for authorisation for any works in proximity of the Hazard Zone, an Authority to Work (AtW) must be submitted in the first instance saying when and where the work will be carried out, and describing the work to be done.

Apply here: https://edinburghtrams.com/atw

Further information regarding working in proximity to power lines and cables can be obtained from the Health & Safety Executive, Guidance Note GS6 'Avoiding Danger from Overhead Power Lines'.

Contact Edinburgh Trams General Enquiries on 0131 622 8910 (recorded line) or email tram.control@edinburghtrams.com.

In case of an emergency, please dial 0131 622 8919 (recorded line).

THE OFFICE OF
THE SCOTTISH ROAD WORKS COMMISSIONER

ARE YOU INVOLVED IN BUILDING WORK, SCAFFOLDING OR SKIP HIRING?

DID YOU KNOW THAT **FIXED PENALTY NOTICES** OF £120 WERE INTRODUCED ON 1 OCTOBER 2008 FOR OFFENCES THAT INCLUDE:

- **THE DEPOSITING OF BUILDING MATERIAL;**
- **PLACING A SKIP; OR**
- **ERECTING SCAFFOLDING**

ON A ROAD WITHOUT PERMISSION FROM THE ROADS AUTHORITY?

FIXED PENALTY NOTICES CAN ALSO BE ISSUED FOR NOT COMPLYING WITH THE CONDITIONS OF A PERMIT GIVEN BY THE ROADS AUTHORITY.

FURTHER DETAILS CAN BE OBTAINED FROM ROADS AUTHORITIES AND AT OUR WEBSITE

www.roadworksscotland.gov.uk

Appendix A - Roads designated as Roads with Special Engineering Difficulty

Under the Edinburgh Tram legislation the following roads will require special measures to be taken in the planning and execution of road works in order to avoid serious failure of the road and the structures thereon. It is intended that both the full carriageway and footway will be so designated.

Road	Extent of Effect
Lindsay Road (part)	That part of the road extending approximately 94 metres Southeast from the extended West kerbline of Annfield to approximately 18 metres West Northwest from the extended West kerbline of Annfield.
Ocean Drive	Entire road.
Constitution Street	Entire road.
Leith Walk	Entire road.
Picardy Place	Entire road.
Leith Street (part)	That part of the road extending approximately Southwest from the top of Leith Walk to a point approximately 75 metres Northeast of the extended Northeast kerbline of Greenside Row.
Broughton Street (part)	That part of the road extending approximately West, then North from the Southwest end of Leith Walk to a point approximately 45 metres South from the extended South kerbline of Broughton Street Lane.
York Place	Entire road.
Queen Street (part)	That part of the road extending approximately West from the western end of York Place to a point approximately 109 metres East of the extended East kerbline of North St David Street.
North St Andrew Street	Entire road.
St Andrew Square	The entire Westernmost road of the square.
South St Andrew Street	Entire road.
Princes Street (part)	Entire road approximately West of the junction with South St Andrew Street, including the entire junction area.
Shandwick Place	Entire road.
West Maitland Street	Entire road.
Haymarket	Entire road.
Haymarket Terrace (part)	Entire road from Haymarket to a point approximately 46 metres East of the extended East kerbline of Coates Gardens, including the junction with Haymarket Yards.
Haymarket Yards	Entire road.
Lochside Avenue (part)	That part of the road extending approximately West from the extended West kerbline of Lochside Crescent for approximately 25 metres.
South Gyle Broadway (part)	That part of the road extending from a point approximately 50 metres Northwest from the extended West kerbline of Gyle Avenue approximately Northwest for 115 metres.
The road north from the A8 Glasgow Road to Gogar Farm (part)	That part of the road extending approximately North from a point 18 metres from the North kerbline of the A8 Glasgow Road for 22 metres.
The road north from the A8 Glasgow Road to Castle Gogar (part)	That part of the road extending approximately North from a point 28 metres from the North kerbline of the A8 Glasgow Road for 22 metres.
Gogar Mains Farm Road (part)	That part of the road extending approximately North from a point 433 metres from the North kerbline of the A8 Glasgow Road for 24 metres.
