

Equality and Rights Impact Assessment

2015-2018 Budget Summary Report

What budget option does this ERIA information relate to?

CF10 Full Service Review of CLD

What are the main impacts of this option on rights?

The reduction in numbers of CLD practitioners will affect the ability to enhance opportunity for the citizens of Edinburgh. The provision of adult education, youth work and support for community groups will be reduced and as such opportunities to have good health, engage in learning and education, improve standard of living, be engaged in productive and valued activity, support, individual family and social life, have identity, expression and respect and to be able to participate, influence and be heard will be reduced.

What are the main impacts of this option on equality?

The CLD code of ethics guides CLD practice and includes the statement that 'our work promotes equality of opportunity and outcome. Our practice is equitable and inclusive'. A reduction in provision will not impact on this equalities commitment.

What are the main recommendations to address either the positive or negative impacts?

The reduction in service provision will require new relationships and partnerships to be created and an agreed set of principles identified for CLD. This activity will be a key feature in the planning of locality structures.
