

JUNE 2019

We are creating a masterplan for replacement and refurbishment of Trinity Academy. This is being done in two phases.

Phase 1: £10M has been allocated to create a new sports facility at Bangholm Outdoor centre.

Phase 2: We will engage with stakeholders to plan the rest of the improvements and once funding is allocated we can progress to implementation.

We have been speaking to the school staff and learners, the outdoor learning team and Parent Councils from cluster schools to understand what the requirements and benefits are for education.

We have been speaking to local residents, clubs and community groups to understand their requirements and consider the benefits the new facility can bring to the community.

We are preparing a final plan for Phase 1 to ensure it meets requirements for education and can also be used by the wider community.

TRINITY ACADEMY

Key Dates:

June/July 2019: Phase 1 Strategic Brief and accommodation schedule complete. Design Team appointed for detailed design stage.

August – October 2019: Phase 2 Stakeholder workshops.

Nov 2019: Estimate for Phase 1 Planning application.

10 December 2019: Phase 2 preferred option to committee for consideration.

July 2020 - Dec 2021: Estimated timescale for Phase 1 Construction.

Feb 2020: Budget process for Phase 2.

The detailed plans for Phase 1 will be finalised over the summer and we are beginning the process for Phase 2 later this year.

For Phase 2 we will be arranging a series of engagement sessions with school staff, learners, parents and the community during August, September and October this year.

We will arrange a meeting with Head Teachers and Parent Council chairs at the beginning of the next school year in August to finalise the details for these events.

Further details of how to get involved will then be circulated by your Parent Council.

We will be creating a Wave 4 page with links to more project information on the Council's website over the summer and will send details once this is available.
