Choice	16 C	

We want to introduce a loss of office policy to retain accessible office accommodation. This would not permit the redevelopment of office buildings other than for office use, unless existing office space is provided as part of denser development. This would apply across the city to recognise that office locations outwith the city centre and strategic office locations are important in meeting the needs of the mid-market. Or we could Introduce a 'loss of office' policy only in the city centre. - Yes / No

Short Response

I support no chang

Explanation

A loss of office policy affords no flexibility as market forces dictates future use. LDP will still designate areas/sites by use and a reasoned justification for departure would need to be made. Many areas of the years have changed from residential to office and back to residential again. Working environments are constantly adapting and this policy would be overly restrictive. Placemaking is important.

Choice 16 F1

We want to identify proposals for new modern business and industrial sites to provide necessary floorspace at the following locations. Do you agree? - Yes / No -**Support - Leith Strategic Business Centre**
