Choice 2 C

**We want to revise our design and layout policies to achieve ensure their layouts deliver active travel and connectivity links. Do you agree with this? - Yes / No**

Short Response

Explanation Only up to a point. Travel by foot or bicycle is not practical for elders, Disabled people, and people who need to carry equipment to do their jobs, or who have to travel to several different sites to deliver goods or services.

Choice 2 D

**We want all development, including student housing, to deliver quality open space and public realm, useable for a range of activities, including drying space, without losing densities. Do you agree with this? - Yes / No**

Short Response

Explanation However, developments tend to exclude public access to any 'quality' open space they include - how will you resolve this? I don't approve of 'gated' communities.

Choice 3 A

**We want all buildings and conversions to meet the zero carbon / platinum standards as set out in the current Scottish Building Regulations. Instead we could require new development to meet the bronze, silver or gold standard. Which standard should new development in Edinburgh meet? - Which standard?**

Short Response

Explanation I seriously doubt the higher standards will be either affordable or deliverable.

Supporting Info

Email

Choice 5 A

**We want City Plan 2030 to direct development to where there is existing infrastructure capacity, including education, healthcare and sustainable transport, or where potential new infrastructure will be accommodated and deliverable within the plan period. Do you agree with this? - Yes / No**

Short Response

Explanation Resident workers are being pushed out of the city centre, where the existing infrastructure is good, High rents/purchase costs exclude many city centre workers, forcing them to commute, thus creating transport difficulties and rush hour congestion. If central development sites were available to the majority of workers, most of whom are not particularly well-paid, instead of allowing developers to throw up lucrative hotels, student blocks and short-stay hotels, you wouldn't need to spend so much on creating infrastructure and housing on the green belt. At a Community Council meeting, a councillor said to me, "students want to live in the centre." So do tax-paying residents!!!

Choice 5 B

**We want City Plan 2030 to set out where new community facilities are needed, and that these must be well connected to active travel routes and in locations with high accessibility to good sustainable public transport services. Do you agree with this? - Yes / NO**

Short Response

Explanation Not enough detail about how this will be achieved.

Customer Ref:  Response Ref:

Supporting Info

Email

Choice **6 B**

**We want to use Place Briefs to set the targets for trips by walking, cycling and public transport based on current and planned transit interventions. This will determine appropriate parking levels to support high use of public transport. Do you agree with this? - Yes / No**

Short Response

Explanation You can't legislate for how people live their lives! I agree people who spend all their working day at a single site shouldn't drive to work, and the school run is a luxury for some. But shift workers may have no other option, and there are others who need to visit several sites within a limited time, or have equipment they need to do their job.

Choice **7 A**

**We want to determine parking levels in development based on targets for trips by walking, cycling and public transport. These targets could be set by area, development type, or both and will be supported by other measures to control on-street parking. Do you agree with this? - Yes / No**

Short Response

Explanation I don't like 'targets'. They create a false impression of success or failure, and they impose unrealistic constraints on people who have no option but to drive.

Choice **7 B**

**We want to protect against the development of additional car parking in the city centre to support the delivery of the Council's city centre transformation programme. Do you agree with this? - Yes / No**

Short Response

Explanation With reservations. You could start by banning councillors and council staff from driving to work or meetings, and use the bus instead of taxis. Use skype or other electronic media for meetings to cut down travel time and costs, and encourage businesses to do the same.

Choice 9 A

**We want to consult on designating Edinburgh, or parts of Edinburgh, as a 'Short Term Let Control Area' where planning permission will always be required for the change of use of whole properties for short-term lets. Do you agree with this approach? - Yes / No**

Short Response

Explanation Too many formerly working-class neighbourhoods where people on low wages could still afford to live within walking distance of their work have been taken over by well-off people who can afford to buy up whole tenements and let them at exorbitant rents to tourists. This has the knock-on effect of destroying neighbourliness and local businesses that serve permanent residents.

Choice 9 B

**We want to create a new policy on the loss of homes to alternative uses. This new policy will be used when planning permission is required for a change of use of residential flats and houses to short-stay commercial visitor accommodation or other uses. Do you agree with this? - Yes / No**

Short Response

Explanation Provided taxpaying residents can veto such change of use. I'm fed up hearing people say, you should be able to do what you like with your own property. If owners want to let homes as short-stay accommodation, they should be restricted from doing so if they don't live on or near the premises.

Choice 14 C

**We want City Plan 2030 to allocate the Airport's contingency runway, the "crosswinds runway" for the development of alternative uses next to the Edinburgh Gateway interchange. Do you agree with this approach? - Yes / No**

Short Response

Explanation

Choice 15 A

**We want to continue to use the national 'town centre first' approach. City Plan 2030 will protect and enhance the city centre as the regional core of south east Scotland providing shopping, commercial leisure, and entertainment and tourism activities. Do you agree with this? - Yes / No**

Short Response

Explanation

Customer Ref:  Response Ref:   
Name   
Response Type   
On behalf of:

Supporting Info

Email

Choice 15 B

**New shopping and leisure development will only be allowed within our town and local centres (including any new local centres) justified by the Commercial Needs study. Outwith local centres, small scale proposals will be permitted only in areas where there is evidence of a lack of food shopping within walking distance. Do you agree? - Yes / No**

Short Response

Explanation That doesn't make sense to me. The only small-scale proposals I would think create a problem are intrusions from chains like Starbucks or mobile phone shops and the like. It looks like social engineering if the intent is to force people to walk or cycle when they don't need to.

Choice 15 C

**We want to review our existing town and local centres including the potential for new identified centres and boundary changes where they support walking and cycling access to local services in outer areas, consistent with the outcomes of the City Mobility Plan. Do you agree? - Yes / No**

Short Response

Explanation I'd need more information about this, but the intention to 'support' walking and cycling sounds more like an intention to impose walking and cycling.

Choice 15 D

**We want to continue to prepare and update supplementary guidance for our town centres to adapt to changing retail patterns and trends, and ensure an appropriate balance of uses within our centres to maintain their vitality, viability and deliver good placemaking. Instead we could stop using supplementary guidance for town centres and set out guidance within the plan. Which approach do you support? - Yes / No**

Short Response

Explanation Retail guidance sounds too much like imposition, probably from council groups of people who don't live in the area.
