

### **Waste From Council Premises**

- It is the Council's policy that all of its premises must comply with the internal Resource Use Policy, as well as the Waste (Scotland) Regulations and all other relevant legislation.
- The Resource Use Policy requires the waste hierarchy to be applied, to reduce, reuse and recycle, and in addition as a minimum to ensure that facilities are in place to recycle: paper, card, cans, plastics, glass and food, as well as to collect non recyclable waste for energy recovery.
- Procedures must be put in place to manage specialised waste streams not covered by general household waste provision (e.g. engine oil).
- It is the responsibility of building managers, in partnership with the Facilities Management team covering that building, to ensure compliance on a site by site basis, and to arrange collection of the above materials by the Waste and Cleansing Service.
- All steps must be taken to maximise use of the recycling services and prevent their contamination with other materials, through the use of adequate signage, the use of correct coloured sacks, and staff training.
- It is expressly forbidden to mix separately collected and mixed waste streams.
