

### **TRO/22/01 - STATEMENT OF REASONS**

The Council is progressing phase 3 of the Tram Cycle Safety Improvements project, which will implement road layout changes to improve safety for cyclists along the route of the tram. This requires a Traffic Regulation Order (TRO).

- Which will introduce a one-way, except for cycles, restriction on Grosvenor Street on approach to Clifton Terrace.

The scheme supports cycling policies detailed in the Council's Local Transport Strategy and Active Travel Action Plan (ATAP).
