Edinburgh's Local Housing Strategy 2025-30

Action Plan (June 2025)

Overview: This Action Plan captures all the actions identified through the development of the Local Housing Strategy. As the LHS takes a comprehensive overview of housing and homelessness services, a wide range of actions have been identified, the majority of which will be monitored directly through the annual updates on this strategy.

A number of the actions identified in this plan will be delivered and monitored through the <u>Housing Emergency Action Plan</u>. As noted in the strategy, the LHS must be considered in conjunction with the Housing Emergency Action Plan (HEAP), which sets out actions in response to the current housing emergency, principally relating to housing supply and demand for housing. A significant number of actions identified in the LHS Action Plan relate to these themes and directly support the response to the housing emergency and will therefore be driven forward through the HEAP.

Chapter 1. Deliver homes to provide choice and affordability for all

Strategic Objective(s): Deliver a supply of affordable homes to meet demand

The other actions relating to chapter 1 will be managed through the Housing Emergency Action Plan under several of the high-level actions for Housing Supply and Demand for Housing, as below:

- HS1: Work with partners to increase and improve supply of housing in the city and develop and implement innovative funding solutions.
- HS2: Be responsive to the housing market by being flexible and dynamic in approach to tackling the Housing Emergency.
- HS3: Work with partners to develop new delivery models of housing in the city.
- DH1: Work with partners to make best use of all homes in the city.

Chapter 2. Support private renters, homeowners and landlords

Strategic Objective(s): Households living in privately rented homes have access to, affordable, well-managed and high-quality housing with security of tenure.

Homeowners are aware of the advice and support available to help manage their homes and how to access this. Homeowners living in shared blocks are supported to manage the condition of the shared parts of their properties.

Action	/ Commitment	Baseline	Indicator or Measure	Key Activities	Target/ End Point	Coordinator
2.	Work towards increasing the proportion of social rented homes in order to (at least) match the Scottish average, and in turn reduce the proportion of PRS stock in the city.	16% of homes in the city are for social rent, compared to the Scottish average of 22%. To bring Edinburgh in line with the Scottish average would require an additional 15,000 new social rent homes. This would require £1.6billion in grant funding and £3billion in borrowing.	Increasing number of new homes delivered for social rent – this is dependent on funding and a number of other factors.	Completion of commissioned work identifying the homes and tenure split required to end the Housing Emergency – Sept 2025. 3.	Support compliance within the Private Rented Sector via landlord registration, licensing and enforcement. 4.	Consider ways to improve the provision of guidance and support for landlords and tenants (to include guidance on legislation on letting and renting properties, and providing clear communication on how the council can support tenants who have a dispute with landlords.)	Mapping of current information and guidance is to be carried out	Landlords and tenants provided with clear information that is more easily accessible. Tenant awareness about tenants rights improved	Review meetings held with key stakeholders Website updated to help signpost to relevant resources. 9.	Radically reduce the level of second property ownership in the city	Approx 1,700 second homes in Edinburgh (Jan 2024) 200% Council Tax premium has been applied for second homes since 1 April 2024.	Number of second homes brought into alternative use through Council or partner involvement.	Mapping exercise to understand the current mix of second homes in the city and the financial viability of any Council/partner involvement. Proactive communication to owners of second homes	2030 (Ongoing)	Housing and Homelessness Strategy Team

There are additional actions around increasing the availability of affordable accommodation for students and exploring co-operative models that will be managed through the Housing Emergency Action Plan. These will sit under two of the high-level actions for Demand for Housing and Housing Supply

- DH2: Work with partners to plan for future housing needs
- HS3: Work with partners to develop new delivery models of housing in the city.

Chapter 3. Ensure homes are modern, warm and sustainable

Strategic Objective(s): Ensure all homes are well maintained, energy efficient, safe, sustainable and climate proofed, working towards net zero emissions

Reduce fuel poverty and ensure every household has a warm home they can afford to heat

Action/ Commitment	Baseline	Indicator or Measure	Key Activities	Target/ End Point	Coordinator
11. Continue to support all new build Council homes to be constructed to high standards of energy efficiency and sustainability. There is a lower energy demand to heat the homes, with low or zero emissions heating systems required. This means they will minimise the amount of carbon emissions to aid with the city's ambition to be net zero carbon and reduce fuel poverty. 18. Continue to develop in house capacity and skills in order to grow a public sector workforce capable of delivering the investment needed to repair and climate-proof homes across the city.	63% of repairs carried out internally/ 37% sub- contracted (2024/25 data) Capital works all delivered externally	Increased volume of repairs work carried out internally Feasibility of capital/ climate-proofing works being delivered inhouse assessed (consideration of specialist skills, risk etc)	Proposals taken through committee – Autumn 2025	Not determined yet - report to committee in Autumn 2025 will outline this	Service Improvement Team

Chapter 4. Prevent and respond to homelessness

Strategic Objective(s): Prevent homelessness wherever possible

Where temporary accommodation is required, this will meet the needs of the household

Support people to access settled accommodation as quickly as possible

Reduce the number of people sleeping rough

Action/ Commitment	Baseline	Indicator or Measure	Key Activities	Target/ End Point	Coordinator
19. Youth Homelessness Prevention including the development of a Youth Housing Hub	Initial stakeholder event has taken place	Subject to Business Case - Implementation, resulting in reduction in youth homeless presentations	Business Case to be developed	TBC – dependency on business case	Housing and Homelessness Strategy Homelessness and Housing Access
20. Work in Partnership with Children Services	Initial workplan for development work with Through Care and After Care has been drafted	Greater tenancy sustainment for young people	Workplan implemented Further work required to develop work with wider Children's Services	2026	Housing and Homelessness Strategy

There is an extensive list of actions relating to these strategic objectives which will be managed through the Housing Emergency Action Plan. These will sit under several of the high-level actions for Housing Supply and Demand for Housing, as below:

- HS1: Work with partners to increase and improve supply of housing in the city and develop and implement innovative funding solutions.
- HS3: Work with partners to develop new delivery models of housing in the city.
- DH1: Work with partners to make best use of all homes in the city.
- DH2: Work with partners to plan for future housing needs.
- DH3: Work with partners to develop and implement activity to prevent homelessness in the first place.

Chapter 5. Provide suitable homes with the right support to meet people's needs

Strategic Objective(s): Ensure housing is accessible, with the right support to meet everyone's needs

Action/ Commitment	Baseline	Indicator or Measure	Key Activities	Target/ End Point	Coordinator
21. Develop a Joint Working Protocol between Edinburgh Health and Social Care Partnership, Housing and Homelessness, focusing on prevention and housing need and to support strategic priorities of each area as reflected in Housing Contribution Statement	No protocol in place	Protocol agreed to support strategic priorities of each area and support joint working	Develop protocol	2026	Housing & Homelessness Strategy
22. Improve monitoring and reporting around accessible housing, across tenures	Limited information across tenures on wheelchair accessible housing in the City, as identified in 2021/22 Accessible Housing Study.	Improved monitoring available to inform future planning and service provision	Finalise work on updating NEC to show Council new build wheelchair homes.
