

Professional Services Expenditure 2024/25

Professional services are purchased externally where Council staff cannot provide the service, either due to a requirement for specialist expertise or to service capacity constraints.

The purchase of professional services is governed by relevant procurement legislation and [Council Contract Standing Orders \(CSOs\)](#). CSOs were approved by Council on 20 March 2025.

Council Contract Standing Orders define providers of professional services as specialists “who charge a fee for providing advice or services such as, but not limited to business or project management, human resources, environment, communication, information technology, property and estates and financial services.”

On 29 October 2020, Finance and Resources Committee approved the award of a multi-lot framework agreement for the provision of Professional Services to support the Council’s technical services in delivering construction, maintenance and repair programmes. On 9 December 2021, Finance and Resources Committee approved the award of a multiple supplier Clerk of Works Framework at a total estimated value of £3m.

For 2024/25, payment of £17.356m was made to Framework providers.

Revenue expenditure of £2.201m and capital expenditure of £3.751m was incurred during 2024/25 for provision of other specialist services, procured in accordance with the Council’s Contract Standing Orders. This expenditure is out with the Professional Services Framework for provision of technical services.

The reported expenditure includes payments to each service provider, where payments exceed £2,500 across all Council services.

The table below provides a summary of expenditure.

2024/25	Revenue Expenditure	Capital Investment Programme	TOTAL
	£	£	£
Professional Services Framework	2,630,302	14,726,157	17,356,459
Other Specialist Service providers	2,200,839	3,750,652	5,951,491
TOTAL	4,831,141	18,476,809	23,307,950

The costs set out in the table were contained within the Council’s approved revenue budget and Capital Investment Programme for 2024/25.

Revenue expenditure on external professional services was 0.37% of the 2024/25 service revenue outturn.

Expenditure incurred on external professional services to progress Capital Investment Programme (CIP) projects was 3.51% of total capital expenditure for 2024/25.
