

THE CITY OF EDINBURGH COUNCIL (TRAFFIC REGULATION: RESTRICTIONS ON WAITING, LOADING AND UNLOADING, STOPPING AND PARKING PLACES) (VARIATION NO. 25) ORDER 2025- TRO/24/33A

A number of amendments have been identified as being required to ensure the effective and efficient working of the new zones implemented as part of the Strategic Review of Parking. These amendments take account of situations identified during the course of the implementation process and will help to ensure that restrictions work effectively across the new zones.

The proposals for Westfield Street, which will see Westfield Street added to zone S6 as a Permit Parking Area, will ensure a consistency of parking control across the S6 area and protect the limited parking availability in this street. The status as a permit parking area will mean that the use of this street will be limited to residents of the street itself (and to directly adjacent properties), whilst also allowing the use of visitor permits to facilitate visitor access.
