

CO/26/01 - Statement of reasons

On [4 September 2025](#) the Traffic Regulation Orders Sub-Committee approved making Experimental Traffic Regulation Orders ETRO/21/27B, ETRO/21/30A and ETRO/23/23A into permanent Traffic Regulation Orders (TROs).

The ETROs and subsequent TROs are formed of written schedules that describe the different restrictions. While written orders are still used for all moving traffic restrictions, all static restrictions (such as yellow lines, parking places etc) are now shown using a map-based Order.

In order to reflect the elements of ETRO/21/27B, ETRO/21/30A and ETRO/23/23A that were made into permanent TROs at this stage, within the Council's map-based TRO system, it is necessary to carry out a further, shortened, legal process to consolidate the newly made TROs into the mapping system.

In summary, the objective of this process is:

- To reflect the elements of ETRO/21/27B, ETRO/21/30A and ETRO/23/23A that were made into permanent TROs within the Council's map-based TRO system by completing an additional legal process to consolidate the newly made TROs into the mapping system.
