

City of Edinburgh Council Participation Requests

Annual Reporting Statement

During the period 1st April 2025 to 31st March 2026:

- 0 new participation requests were received.
- 0 requests were agreed.
- At the end of this reporting period there were no changes to services as one request was still to conclude.

Community groups continue to be actively invited to participate with Council services informally about their proposals and help and support is made available to help community groups throughout the formal process.

An online webpage provides a direct mailbox for correspondence and enquiries and the application form and links to guidance on making a request.

The Council ensures participation requests are assessed in line with legislative requirements and services are supported through each stage of the process to ensure positive outcomes are achieved by working closely with communities.
